To whom it may concern,

Re: BRS Cleaning Contractors

Feedback on the following questions listed below:

1. How did they perform to programme?
2. Were the workforce adequately trained i.e. CISRS / CSCS / NVQ qualified for trade specific / Trained Slings / working at height,
3. Did they provide adequate resources?
4. Workers attitude to Health and safety,
5. Did they have any accidents or near misses on your project or are you aware of any such incidents that occurred with this contractor,
6. Quality of their documentation, RAMs / accident reporting etc.,
7. What was your involvement with them and how did you find the process?
8. Would you recommend them on your future project, whether you would or what wouldn't be the reason for this decision.
9. Is there anything else I haven't pointed out above you would like to comment on?

BRS Cleaning Contractors Ltd are one of our key supply chains.

They consistently provide an excellent service and I have no hesitation providing a reference for them.

In response to your queries below:

1. They performed very well to programme no issues
2. All operatives appropriately trained IPAF, PASMA etc
3. Resources were adequate and they help us when programmes are tight
4. Very good / proactive attitudes to HSEQ
5. No accidents or incidents
6. RAMS always thorough no issues
7. I managed them and continue to on our projects
8. I would highly recommend them
9. No other issues to report
